COUNTERFEIT HALVES AND QUAR TERS .- The counterfeiters are taking advantage of the position of financial matters, and the discrediting of nearly all kinds of paper currency, to operate with their bogus money. A large quantity of counterfeit halves and quarters are in circulation in Cincinnati. The coin is but fairly executed, and may be rendily detected on examination.

Sr. Paul., M. T .- It is reported that the indebtedness of St. Paul to the East is over two millions of dollars. The pressure is tremendous. The people are exercising their ingenuity in inventing a currency. It is proposed to ave the City issue small notes for every dollar of its debts, to be circulated as money, and the Stocks of Gas and Plank Road Companies are to be metamorphosed into a first class Shin-plaster currency. St. Paul deserves a better fate. It is one of the most vigorous and enterprising of our western cities. Land speculation has been the leading abusings of its citizens, and the pressure will be fatal to many of them .- Cin.

Prospects Ahead. The Washington correspondent of the Courier and Enquirer, speculating about 10 Kansas affairs, writes as follows: "Should they not be removed, the

In this strange con-5 currence of lately adverse clements the Republicans will probably coalesce with the moderate and conservative Democrats, and confirm the Governor and Secretary. It is becoming extremely doubtful whether Mr. Buchanan will find himself supported by a majority in both or cither house of the next Congress. Gov. Walker's case promises to be the rock on 18 which he will be wrecked. The ultra South will be intensely incensed at Gov. Walker, and the President's non-committalism as to the course of his satrap in Kansas, permitting the Southern firecaters to abuse the Governor, and sustain the Administration, will not do much longer. He must sustain Walker with all his strength, or remove him 18 In either case he will have to face a for midable displeasure .- [Cin. Com.
